11 responses

Please comment on the following:

The most valuable feature of the TEAM was:

8 responses

This course is really need of every medical person in Era of trauma especially in 3rd world

Time management by faculty

Team work and passion

Organized and timed

Team effort

need of time.

Hands-on skills stations

Student oriented and involved in each station

The least helpful component of the TEAM was :

6 responses

Participants are too young they have no clinical application now

Jamming of information in s short time

Not as such

Clinical commitments

interactive sessions

None

The sessions could have been improved by:

6 responses

Allocating more time to the session

Make students to do at least 2 or 3 call in ER

The conductor should be rotated in different skills station

All was well

1. rotation of students in emergency where the learning would be enhanced. 2. doing this course in final year would be much beneficial

None
