Please comment on the following:

The most valuable feature of the TEAM was:

11 responses

The least helpful component of the TEAM was :

7 responses

Nothing

Individual scoring of content. I believe that after discussion a global score was enough

None

The time per station

Content Overload. Some of the students were unable to cope up with the pace of the course

The sessions could have been improved by:

7 responses

Add videos of each skill to students

Longer discussion time.

Emphasise students to read book essentialy

Longer time to clearly elaborate on concepts

More frequent session

if logistically possible course should be of 2 days.

Testing would increase absorption in my view.
