

Quicklook - Geology

Continent	Africa	State	Morocco ²
		Type	Vector

Spatial resolution (either an equivalent scale or a distance)

Equivalent scale (vector data)	1 /	50000
OR distance/pixel size (raster data)	degree	

Keywords

Topic category code ISO	Geoscientific Information,
Theme(s) INSPIRE	Roads, transport network

Identification

Data set title and abstract	
Zat valley : roads	
Descriptive keywords (place and theme)	
morocco, Zat valley	
Point of contact	Ali Aouda
Spatial representation type	shapefile

Spatiotemporal references

Geographic extent			
Geographic bounding box (degree decimal)			
Western-most coordinate (UL_XDEC)	-7,601525	Easter-most coordinate (LR_XDEC)	-7,452331
Northern-most coordinate (UL_YDEC)	31,532120	Southern-most coordinate (LR_YDEC)	31,278017

Review and quality

Lineage info

Field data collected during the H2020 program mission.

This project has received funding from the *[European Union's Horizon 2020 research and innovation programme]* *[European Research Council (ERC) under the European Union's Horizon 2020 research and innovation programme]* *[Euratom research and training programme 2014-2018]* under grant agreement No [number] 644015

Data quality info

Supplemental information

Spatial type	<i>Jeu de données</i>
Language	<i>français</i>
Character set	<i>UTF8</i>
EPSG Code	<i>4326</i>
Reference system - datum	<i>D_WGS84</i>
Reference system - Projection	<i>GCS_WGS_1984</i>

Continent	Africa	State	Morocco ⁴
		Type	Vector

Constraints of distribution and access

Metadata distribution	internet
Data distribution	
Legal constraints
